## Hi Tech Vet Pharma Probiotic Production Facility

### 500Ltrs Qty. No. 2

First step scale fermenter is semi-automated usually used for scale-up from flasks and pilot quantity production.

### 2500Lits Qty. No. 4 Semi-Automatic Fermenter

### Tubular Centrifuge

Equip Engineer, AS 26 vertical centrifuge, stainless steel bowl, internal cooling coils and 5.25 liter bowl solids holding capacity

### Lyophilizer

Stainless steel contact surfaces, NO stoppering, with condenser, vacuum pump, and external ice chamber.

### **Tableting Machine**

STD-12 STN, Contact Parts in SS, Three Piece Turret with SS Die Plate

### **Homogenizer**

Capacity is 1000 Liters

### **Vacuum Packing Machine**

Double Chamber Model, PLC Based Control Panel With 4 Line LCD Display

**RO Plant**

**DM Plant**
